Intervideo Windvr 6.1 For Windows 7  
Free 17 ->->->-> DOWNLOAD (Mirror #1)  
free InterVideo WinDVR 6.1 software  
download,. Windows Intervideo Windvr  
6.1 For Windows 7 Free 17 Generic  
name Intervideo Windvr 6.1 For  
Windows 7 Free 17 Overview Intervideo  
WinDVR 6.1 is a multifunctional DOS-  
based software utility. It allows you  
to view and record live television,  
pause and rewind live TV, and browse  
through recorded shows, movies, and  
other types of media. The program  
also allows you to record programs  
using the timer functionality and to  
edit recorded programs. The user  
interface is protected with the 'off  
the record' password. Intervideo  
WinDVR 6.1 is part of the WinDVR  
family. It supports a wide range of  
video and audio recorders. These  
include VCRs, Camcorders, DVD  
players, PlayStation 2, Nintendo  
GameCube, Nintendo 64, and Sega

---

Dreamcast as well as many others. Intervideo WinDVR 6.1 supports. But also unencrypted composite video, digital video, high definition digital television (HDTV) and digital VCRs. Interface The interface of Intervideo Windvr 6.1 is color-coded. The main screen shows all of the available functions and their settings. There are icons to switch between the main menu, the Player, the library and the data record window. There is an on/off button to the right of the header. The icons for the selected media also turn on and off when appropriate. The Player window is the main display for the program and for the recorded content. The Player window is divided into 4 parts. These parts correspond to the recorder's input, the time counter, the recordings list and the recorded content list. The first window you see when you start the program is the

---

recorder's input window. It lists all devices for which recordings are available. This is the list of input devices in the WinDVR family and the list of recorders that you can select. There are no time limits or restrictions. The time counter counts the time in ten-minute blocks. Each time Intervideo Windvr 6.1 is started or closed a new time counter is started. You can use the shift key to cycle back to the last number that was displayed, and the space bar or the down arrow key to adjust the display. To select a time counter, you just need
