## Banners Custom Shapes

If you want to add an item to your list, just click 'Add' and follow the simple instructions. If you want to delete a listing from your library, remove the 'Delete' link. Visit our 'Contact us' page or email us and let us know what you would like to do. We are also available on 'Whatsapp' for any enquiries. This is an EXAMPLE video, demonstrating the entire course, can be very long. We offer a LIVE demo of our Live Design Agency for your ultimate convenience. You will see and hear the images and videos on your screen or screen capture. For an online class, you will also see the screen capture of the class and you can even email us to ask questions. If you want to know more about our online classes, visit We would like to guide you to a design agency but please note that Graphicxtras is NOT a design agency. It is a platform for people like you who want to make a living as a designer. Take a look at our full ad campaign and take note on the brands we have worked for - the things they sell and the images we create for them We offer FREE Graphic design (personal and commercial use) to our clients. We have built Graphicxtras as a platform and a resource for you to build your portfolio. We want you to design and have control of your own destiny. We want you to give full creative control of your designs and you will be able to offer exclusive high-end designs at prices you can afford. If you are looking to start as a graphic designer, you need to show us your portfolio and a few examples of your graphic design work so that we can make you the best proposal. Visit our website and sign up for a free account today. You can sign up through our website, mobile app or desktop. This is an EXAMPLE video, demonstrating the entire course, can be very long. We offer a LIVE demo of our Live Design Agency for your ultimate convenience. You will see and hear the images and videos on your screen or screen capture. For an online class, you will also see the screen capture of the class and you can even email us to ask questions. If you want to know

## What's New In Banners Custom Shapes?

From the design of different shapes and frames, custom shapes will provide users with frames, long banners shapes, short, emblem designs, banner shapes. There are three different methods for the users to use the designs: Export the shape as a PSD file for commercial use Export the shape as a PSD file for personal use. The shapes can be used as background in Photoshop. Our shapes come in the following sizes and dimensions: 5x5 10x10 20x20 25x25 35x35 50x50 100x100 150x150 200x200 300x300 500x500 700x700 1000x1000 1500x1500 2000x2000 How to use the shapes? Easy - Just use the layers feature to apply the shape to your document! Advanced - The PSD file can be used to edit the shape - including adding different colors, frames etc. Photoshop / Elements / Adobe Illustrator / Adobe Fireworks The shape can be used as: The shape can be used as a background in Photoshop or Elements. Illustrator or Fireworks The shape can be used as a source for brushes or patterns The shape can be used as a mask / cookie cutter The shape can be used as a fill or a path The shape can be used as a fill or a gradient The shape can be used as a pattern The shape is also available as an AVI movie file. This can be used to apply the shape as a background or to animate. The AVI file can be loaded directly into Photoshop or Elements. HOW TO EXPORT: In Photoshop or Elements: Open the file: File > Open Check the 'Shapes' box Click on 'Shapes' Click on the design Right click on the shape and click export In Illustrator: Double click on the shape Click 'Export' In Fireworks: Double click on the shape Click 'Export' The shapes are all stored in native CSH format and can be loaded into Photoshop or elements by the file > open command. The PSD files can be opened in Photoshop CS5 and upwards. Adobe Fireworks and Photoshop CS3 and below cannot open the PSD files. To open the PSD files in Fireworks and Photoshop CS3 and below: Open the PSD file in Photoshop or Fireworks Change the settings: Select 'Export as Fireworks' Make the PSD file into a Fireworks file by selecting the format: Adobe Illustrator (\*.ai) The PSD file can then be opened in Fireworks. .ai .ai4 .ai6
