A. s.o. Music Midi Pro, free to try (Freeware) version allows you to use powerful music notation and transcription features in your MIDI music programs, from music notation editors to real-time pitch-correction. For instance, to compose a new piece you can simply drag and drop musical notations directly into your recording project, or to see the real-time music of another musical piece. In addition, time signatures, note names, notes with transposition (numbers or letters) can be edited. It also offers a useful set of MIDI engine filters, which, with certain MIDI controllers (like keyboard or controller synthesizers) can also be used as virtual MIDI instruments to control tracks of other applications or software (like Cubase, Logic, Sonar, etc.) in real-time. With this powerful music notation editor you can also control your audio/MIDI software from a full-screen player view for quick note editing. A free version of Music Midi Pro (Freeware) without some of the notation features and the piano-roll display is available here.
