Boosts Protection by +10\* Can be unlocked ingame Been playing and grinding a lot of ARPGs lately. A little bored of samey world full of magic and mindless traps that take a few hours to complete. So I have decided to branch out and try something different. So I got into another ARPG, a little FBA I play it with friends a lot. Just started playing it and realized, as a result of becoming one of the elite, they now have a new skill tree, one that allows you to kill literally all the monsters. If your anything like me, this is kinda hard for a hardcore ARPG player to wrap their head around, or worse, if you play one like me. So the trees are built in such a way that it would mean to learn and equip it that way would mean your forever stuck with it, even if the tree would mean you can beat the game with that skill equipped. So this mod makes it so that you can just activate this skill and it will upgrade it and equip it into your skillset, as if you spent 5 hours doing it. All you have to do is pay with a low number of expensive gems, which can be purchased ingame if you have the cash. Before purchasing, make sure that you have either a mod that can help you get gold from pay ingame, or none if you don't have a mod. If you are interested in it, just give me a shout on Skype if you want it and I can get you on my friends list and start with a loan and offer to buy it on your behalf. I cannot

do this, as the game says they are not for selling, but the owner of the game can do it himself. FAQ - Is it for sale, and if so what price is it for? No. For one thing, the owner of the game can do it himself, so we don't need to sell it and make a profit. I just want to help people learn to play this game and have fun with it. Can I edit the character that I buy the skill on, and if so how can I do this? No. It will take some time to open up the account, and I don't want to accidentally make a spam account, which would be a waste of time. So the mod it self will not allow it. You will have to ask the owner of the account

### **What's new:**

**The Lost Wizard is a fantasy novel written by author, Tamora Pierce and the second book in the Circle Opens trilogy, which includes Beka Cooper's Book, and Cards Open. Beka Cooper appears in every chapter as the narrator. "The Lost Wizard" follows three characters who set out in their newly purchased, not-at-all-magical talking phoenix, Delilah Bard, to perform a quest to locate the wizard. The characters are Delilah, her mother, and the traveling companions Ronan, and Emelina. The short story, "The Heart of the Fire", written by Pierce appeared in an anthology for the first chapter. Plot introduction The "Lost Wizard" is a single short story that follows three characters - Delilah Bard, Ronan, and Emelina - who set off to find a wizard, hoping to learn the purpose of their destinies. All three of them have a distinct fascination with magical objects. Delilah is obsessed with dragons and enchanted objects; Ronan with gryphons and wyrms and magical weapons; and Emelina with monsters and weaponry. Ultimately, Delilah and Ronan discover that they are bound for the same purpose, a quest that will take them from the towers of Lahore to the hills of Kestrike, and ultimately to the Imperial Palace where the wizard is said to reside. On their dangerous journey, the three friends—and their talking phoenix, Delilah—discover that despite the wizard's many magical powers and the mythical monsters under his control, the wizard wishes to use his power for the good of all. They also discover that if this is true, then they could be the only real friends the wizard needs. Plot summary Delilah and the rest of her household begin their journey after accepting Tarma's invitation, with the captain, Goriah Beka Cooper, merely**

calling it a holiday, since she will be with them. First they travel on a hired caravan. Eventually, after days of travel and only one stop at the town of Hude, when Goriah asks them where they wish to go, they have no idea. Wary that she is leading them somewhere they do not wish to go; Beka, however, trusts her and the young family follows her to a large city that she has only ever been passing through. They reach the huge city with only a couple of days' worth of food
