The franchise has a release date, game modes, and there's an expectation that the DLC is coming within the week.

This is what teams work for. Call of Duty: Ghosts The game modes are final, but they will come as DLC: Campaign and Survival: One of the main things that Call of Duty: Ghosts is getting right. While featuring the same basic gameplay as before, they have added a new Survival mode and a new Campaign game mode, centered around three timelines, with each one being able to be unlocked. This means that there will be a story that changes based on the player's actions. Furthermore, the Survival mode, in particular, will likely be more open-ended and exploratory. They will also add Camos: The most interesting part of the coming DLC is Camos. While the multiplayer community was unhappy about the lack of camos in the multiplayer modes, Ghosts will offer the community their own personal use of camos. The new Wave 1 camos are simple and have no other players in view when they are in use. Meaning if you use them, no one else can see. Classic Black Ops: The game in question is slated to be a standalone title. It will feature all the weapons from Black Ops, as well as all the multiplayer modes from Black Ops. Black Ops 2 is still supported with all the features that were once in the Black Ops DLC, 6d1f23a050
