The Business Alliance for Technology is a 300 member-strong nonprofit trade association that provides education and other services to Rochester's business, education, and nonprofit leaders and their organizations. The TIR Program supports the Greater Rochester Business Alliance's mission of building high-performance technology initiatives in Rochester and statewide. The Business Alliance's founding members are leaders in the local high-tech industry who recognize that technology is a strategic partner for our region's growth and prosperity. Rochester is undergoing a renaissance in business, technology, education, and health-care at a time when population and revenue levels are declining and unemployment remains higher than the national average. The broader business community is being driven by our local tech companies—and their customers and investors—to support and invest in the skills and tools to compete in the global economy. The Business Alliance for Technology provides services and programs to Rochester's diverse business communities. Our programs build the skills and knowledge of c6a93da74d
